ATHENS INTERNATIONAL JEWELLERY SHOW

“Every piece of Jewellery tells a story”

Athens International Jewellery Show is the leading B2B exhibition event on jewellery and timepieces in Greece. It serves as a reference point for the sector’s most renowned professionals, against the backdrop of the start of the summer tourist season. Special attention is paid to promoting jewellery manufactured in Greece, which stands out for its refined design and high-quality craftsmanship.

Organised with consistent success over the years, the exhibition ensures a reliable environment in which to develop business partnerships between Greek and international companies, highlighting the most modern trends in the gold and silversmithing, and timepiece sectors.

Gold, silver, precious stones, and timepieces are the main sections of the trade event, which will cover an area of 12.000 square metres. Trade visitors choose **Athens International Jewellery Show** to renew their collections, and stay up-to-date with all modern the materials and imaginative manufacturing techniques that are dominating the market.

It should be noted that 85% of visitors state that they will visit the next event.

Athens International Jewellery Show is being held in partnership by HELEXPO and POVAKO (the Panhellenic Federation of Silver- and Goldsmiths, Jewellers and Watchmakers).
