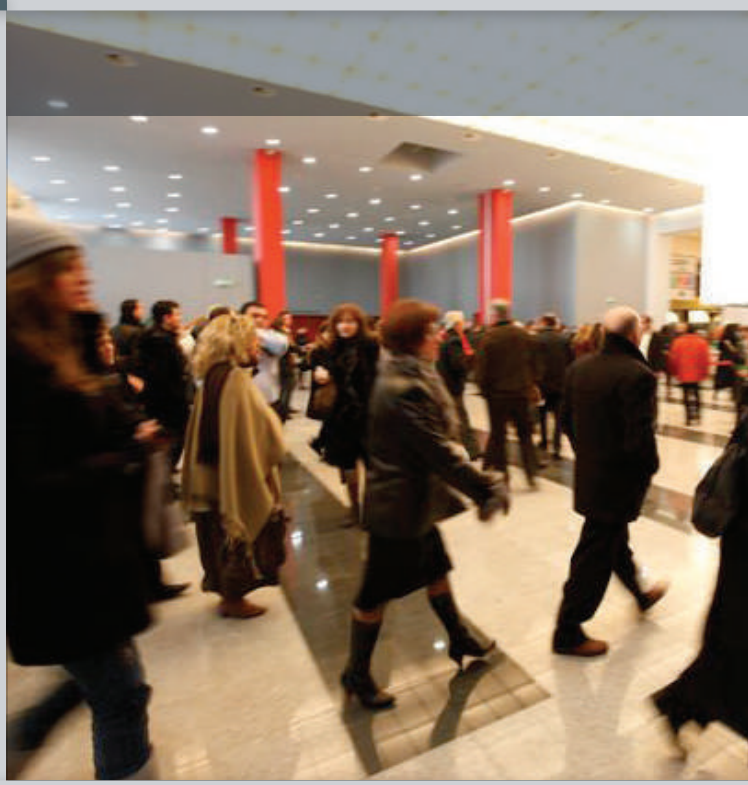
Expowork
Bench mark in modern exhibitions

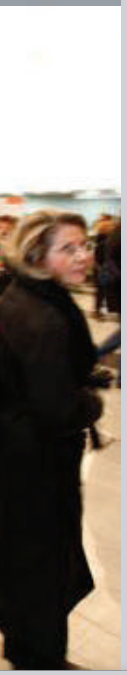
EXPOWORK was founded in August 2003, as the official technical contractor of the most modern exhibition center in Greece at that time, EXPOATHENS. Following this successful business model, EXPOWORK offers now exclusive technical support at **ATHENS METROPOLITAN EXPO** the largest, newest exhibition & conference center in Athens.

EXPOWORK offers technical support to exhibitions, conferences & events.

It covers a wide variety of your exhibitional needs and guarantees the smooth running of every event, during construction, operation and dismantling.

- Commitment to the exhibition and convention needs
- Technical Expertise
- Highly specialized personnel in a wide range of activities
- Integrated portofolio of exhibition services
- Use of modern technical infrastructure and designing programs
- Excellent knowledge of the Exhibition Center due to exclusive activity in ATHENS METROPOLITAN EXPO





Services

The company's core activity is rendering exhibition and congress services.

The range of services covers:

- Standard and upgraded types of shell scheme stands
- Construction of customized stands
- Electrical services
- Furniture hire
- Security services
- Audiovisual media
- Lift services
- Photo shooting & video coverage
- Connections to water supply & drainaged network
- Wireless internet connections
- Cleaning services
- Rigging services
- Digital printings
- Ventilation service

EXPOWORK's customer oriented philosophy and its focus on the exhibitors needs, enhanced by its Know-how and expertise, makes our company a valuable partner for you during your participation at the exhibitions and the events.

Metropolitan Expo

Metropolitan Expo is the largest, most modern and functional venue for exhibitions, conferences and events in Greece and one of the finest areas in Southern Europe

Metropolitan Expo covers a total of 50,000 m² indoor space that includes:

- Four (4) large, modern exhibition halls from 6,000 to 13,000 m² in parallel provision on the same level
- Two (2) conference halls, with 600 and 300 people capacity respectively. They have full audiovisual equipment, lighting dimmer, air conditioning and internet connection
- Two (2) impressive, independent reception halls (Lobbies 1 & 2), with a variety of services, sized 3,000 m², both of austere luxury, exceptional functionality and aesthetics
- One (1) comfortable main corridor of high aesthetics, with natural light and visibility, which consolidates all Centre's spaces, offering to visitors advanced services and infrastructures (rest areas, info kiosks, displays with routes for metro-suburban etc)
- Three (3) outdoor events' spaces of a total area of 6,800 m², which can accommodate any type of event, in a unique environment
- Seven (7) café and two (2) restaurants, stylish & functional
- Two (2) parking areas (PA & PB) of a total area of 100,000 m², designed for easy access and movement of vehicles
- 8,000 m² outdoor green areas, environmentally managed and in alignment with the wider natural environment

Metropolitan Expo is proved to be an ideal exhibition structure, hosting large scale events.

Our main competitive advantages are:

- Very tall exhibition halls, from 7 to 12 meters
- Development at a single level for easy access and events' management
- Many, spacious and fully accessible entrances for cargos & goods
- Floor structure for electrical, plumbing and sewer services
- Full air conditioning and ventilation of indoor space
- Advanced fire detection and fire protection systems
- State of the art technological infrastructure (telephony, wireless internet, sound installation)
- Easy circulation of visitors in all areas of the Centre.

Access to Metropolitan Expo is more than easy, with many travel options.

In detail:

- Metro, Suburban Railway, Urban (OASA) and Intercity (KTEL) Buses
- By air, connected with many domestic, European and worldwide destinations
- By car, via the Attiki Odos and regional roads (Vari - Koropi, Lavrion etc).

Metropolitan Expo is connected via shuttle bus, in a very short time and continuously with all the stops of public transport of the airport. More generally, the Exhibition and Convention Centre, is quickly and easily accessed from Athens, rest of Greece and abroad. A significant competitive advantage of Metropolitan Expo is the enormous, functional parking lots on a total area of 100,000 m², with a capacity of over 4,500 cars.

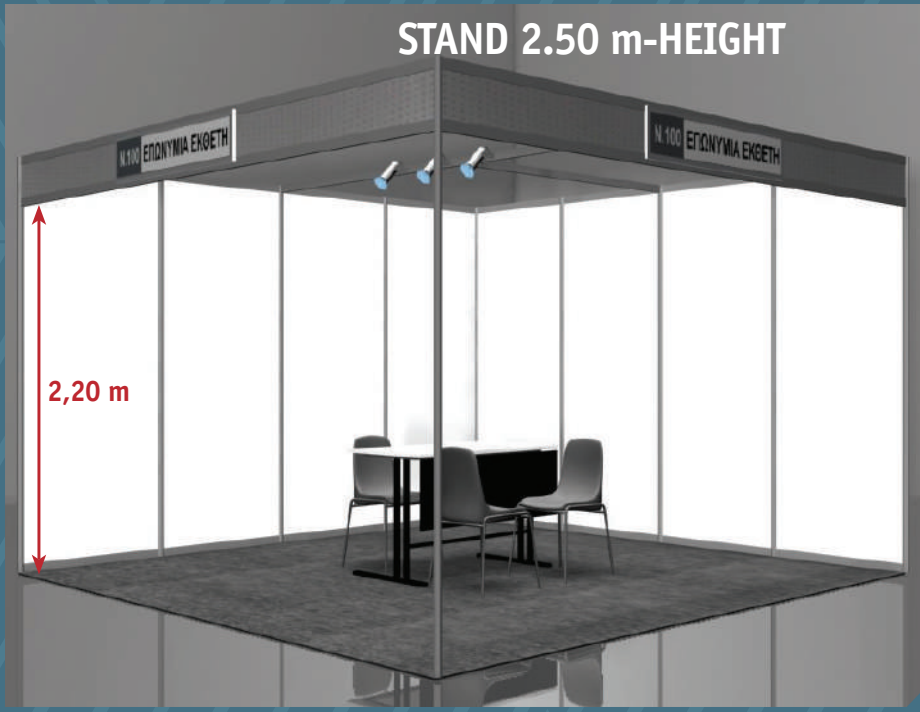
Standard shell scheme **stand**

The 2.50 m-height standard stand, is made of a natural coloured aluminum frame , with white-coloured PVC panels (OCTANORM).

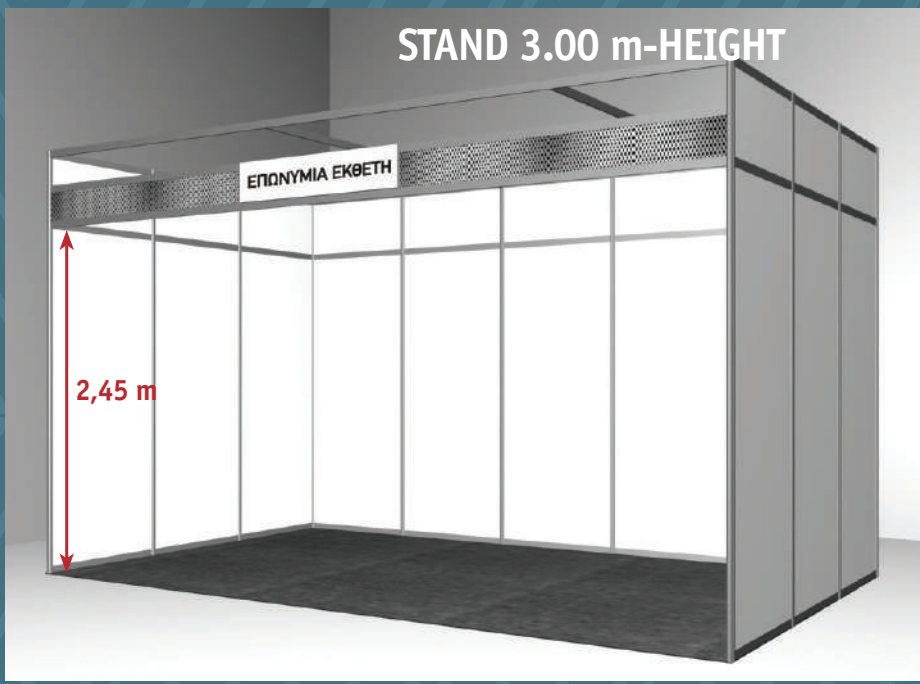
Above the stand entrance and at 2.20m height, these stands have a perforated aluminum fascia accommodating the stand number and exhibitor's name in digital printing on white PVC. The floor is covered with carpet (colour selected by the organizer). The ceiling hosts aluminum beams, one by 2.00m across the length of the stand.

Furniture and electrical equipment is provided according to organizer's standards.

STAND 2.50 m-HEIGHT



STAND 3.00 m-HEIGHT



Dimensions standard shell
scheme stand

Please note no fixings may be made directly all the walls. A comprehensive range of fixing components are available. Please contact the Shell Scheme Contractor for advice. All materials must be removed at the end of the exhibition without causing any damage to the wall panels which burdens the customer.

Regulations:

For the protection of human life and the assurance of the technical integrity and safety of the exhibition center, the following rules apply concerning the overhead rigging service. Additional safety regulations may apply at any time.

RIGGING Regulations of the Exhibition Center:
1. The exclusive responsibility for the installation of hanging points from the ceiling of the halls and common areas of the exhibition center lies with EXPOWORK A.E. and its certified partners.
2. The hanging of any equipment or object from the ceiling of the exhibition center is permitted exclusively at the points specifically designated for this purpose by ATHENS METROPOLITAN EXPO A.E.
3. The hanging of any equipment or object from service networks (lighting, ventilation, plumbing, fire safety, and air conditioning) and structural elements, and from any other point of the ceiling, columns, or walls of the exhibition center, beyond the designated points mentioned in 2, is absolutely prohibited.
4. The hanging service is the result of a study of various factors such as the position, weight, and height of the suspended equipment and is not considered given.
5. EXPOWORK A.E. reserves the right not to fulfill requests that fall under the limitations imposed on the ceiling from a construction standpoint at the location of the booth or for safety reasons.
6. EXPOWORK A.E. reserves the right to inspect and prohibit the use of the customer's hanging equipment. The customer's suspended equipment must meet European safety and operational standards and be in good aesthetic and functional condition.
7. The weight limits for hanging are 150 kg per point on the current meter for halls 1, 2, and 3, including the weight of the points and hanging equipment (minimum distance of one meter between two points), and the minimum allowable distance of suspended signs or structures from the ground is 3 m.
8. The maximum hanging height is 6 m for halls 1, 2 & 3 and 7 m for hall 4.
9. Suspended items must be at least 1 meter away from any element touching the ground (booth backs, building columns, exhibits, etc.)
10. It is clarified that support from the ceiling for points or sections of constructions from the ground is prohibited.
11. Any weight exceeding the predetermined limits will be removed by EXPOWORK A.E. at the customer's expense.
12. Lifting of objects over 40 kg or longer than 3 meters with a lifting platform is prohibited.
13. Under no circumstances should anyone be suspended, walk, or climb on a hanging point or the suspended equipment applied to the ceiling.
14. The service for installing hanging points applies exclusively to the exhibition stated in the application and for the specific location and surface of the booth.
15. The application for the hanging service must be submitted to EXPOWORK A.E. no later than fifteen (15) days before the start of the exhibition preparations. The application must be accompanied by a plan and a responsible declaration. The plan will include all suspended equipment, positions, weights, power supply points, dimensions, heights, and material descriptions. EXPOWORK A.E. will review the hanging plan for feasibility and compliance with this regulation and the exhibition center's regulations and will approve it or suggest any modifications. Any subsequent modifications to the plan must be submitted for approval along with a new responsible declaration no later than 10 days before the start of the exhibition preparations. Unapproved plans by EXPOWORK A.E. will not be implemented by them.
16. Any unapproved construction or construction that does not meet the specifications of this regulation or the exhibition center's regulations will be removed by EXPOWORK A.E. at the customer's expense.
17. EXPOWORK A.E. may exclude any work or/and installation of some equipment that, in its judgment, may create technical problems and/or operational efficiency issues at the exhibition center or that alters or degrades its appearance and function.
18. The customer is solely responsible for damages or injuries caused by inaccurate information or hanging at the points by themselves, their employees, contractors, or subcontractors. EXPOWORK A.E. is not responsible for constructions suspended from the ceiling or for actions taken by the customer independently during the hanging of the construction.
19. Extra safety wire rope is required for every item suspended with a nylon sling. All hanging materials (lights, sound, images, signage) must include safety wire rope. The suspended equipment must not obstruct and must maintain a distance of at least one meter from the ceiling networks.
20. For the suspension of signage, a minimum of 2 hanging points and suitable support (top and bottom hanging bar, sewn sleeves that will support the bars and extend at least 5 cm from each side) is required.
21. In hall 4, only hanging points with a safety ring of 350 kg can be installed, and only at the designated points depicted in the layout with an X and not at any point on the beam.
22. In cases where pre-rigging (support) is used to create additional hanging points, the maximum height of the suspended construction in halls 1, 2, and 3 cannot exceed 5 meters.
23. By signing the application for the hanging service, the customer declares that they are aware of the terms of this regulation, which is an integral part of the application, and that they unreservedly adhere to it.

Invoices are issued in Greek language.

EXHIBITOR'S INFORMATION

A. STANDS UP TO 29sqm / SHELL SCHEME STANDS AND WOODEN TYPE

1. The standard shell scheme stand includes a basic electrical board which is placed on the top of one of the panel walls of the stand, according to electrician's discretion (except from business, executive and wooden stands where the board is placed in the storage room). If you wish this electrical board to be placed on a different panel, you will have to indicate it on a drawing/plan of your stand and send it to us the latest 30 days before the opening of the exhibition.

2. Orders that concern electrical equipment / installations or/and stand constructions, e.g. Installation or connection of floodlights, storage areas, ceiling beams to hold extra lights e.t.c., cannot be executed unless they are accompanied by a drawing/plan indicating their exact positions.

3. The permanent electrical supply of your stand (according to your order) becomes available 1 day before the opening of the exhibition only if your account with our company has been settled.

4. Drilling and painting of melamine and wooden panels and aluminum frames of booths offered by Expowork are not permitted.

B. STANDS ABOVE 30sqm / OPEN SPACE STANDS

1. The order of the stand's power supply should be sent to us the latest 30 days before the opening of the exhibition, attaching a drawing/ plan indicating the position of your electrical board. In case we do not receive the accompanying drawing, your order cannot be executed.

2. The electrician performing the electrical installations in your stand has to fill in, sign and stamp the Electricians' Solemn Declaration Form, mentioning the total power supply in kw needed, as also to attach a copy of his professional license (expiration date and number must be distinct).

3. The Electricians' Solemn Declaration Form which is filled in by the exhibitor's electrician is an accompanying document to the electrical equipment form order which needs to be filled in, by the exhibitor.

4. Open space stands must have installed an electrical board with differential relay. If not, it is possible to order such kind of electrical board, through Expowork.

5. In order to test the electrical installations at your stand, during the exhibitions' build-up period, the "Electricians' Solemn Declaration Form" should have already been sent to Expowork's customer service department.

6. During the build-up period, electrical power sockets are provided in specific positions of each Hall for the stand's construction needs and they operate only during this period.

7. The permanent electrical supply of your stand (according to your order) becomes available 1 day before the opening of the exhibition, only if all documents ("Electricians' Solemn Declaration Form" and professional license) have been submitted and your account with our company has been settled.

POWER CONSUMPTION

For all types of stands, it is necessary to order power consumption which concerns the consumption of all electrical products and services, like spotlights, floodlights, sockets, power supply e.t.c. and is charged accordingly.

INSTRUCTIONS FOR THE EXHIBITOR'S INSTALLATION - DEPARTURE

SETTLEMENT

- Upon arrival at the ATHENS METROPOLITAN EXPO, the exhibitor or his authorized representative shall take delivery of the stand from the hall supervisor.
- All sides of special design stands must be aesthetically acceptable, mainly at the border of different stands. The rear side of constructions exceeding 2,5m in height must also be presentable and painted white.
- Fire stations or fire extinguishers, electrical elements, water supplies or waste pipe connections must not be covered by any sort of structure for easy access in case of emergency.

The following actions are not permitted:

- Cutting wood or plasterboards, as well as using power-tools and equipment, such as spray paint compressors, anywhere inside the Exhibition Centre. Such operations are only permitted outdoors at pecial designated areas.
- Drilling and nailing on the floor, the pillars, the ceiling and any other structural part of the building.
- Drilling and painting of panels and aluminum frames (for suspending purposes, you may request special hooks from the exhibitors' service desk).
- Suspending any item from the ceiling or any other structural part of the halls, or the utility network lines, running parallel to the ceiling.
- Covering walls and corridors.
- Any intervention to the electrical installation without prior approval of the facility's chief electrician
- Should you object or disagree to any service provided by Expowork, please inform our Customer Care Dept. by the end of the exhibition opening day.
- Our equipment and services are only provided during the official duration of the exhibition. Our equipment is to be ready for recollection by our staff, 1 hour after the end of the exhibition.
- Electricians who undertake electrical installations of Customized Stands, are obliged to fill in the relative sworn statement (check with the EXPOWORK - Customer Service Dept.), attaching a photocopy of their professional license and hand it over to the EXPOWORK - Customer Service Dept., in order for their stand to be supplied with electricity.

- Breach of any of the above regulations leading to any damage, shall entail the full restoration of such damage and compensation deposit as calculated by EXPOWORK.
- Cleaning of paint brushes and other painting equipment is permitted only in the industrial sinks, situated in each exhibition Hall.

DEPARTURE

After the end of the exhibition, exhibitors will first settle any outstanding financial affairs with EXPOWORK, and then depart, within the time limit specified by the organizer, after having removed all exhibits and decoration materials used during the exhibition. Should the exhibitor leave any construction material on site, a removal cost will be charged.

REMARKS ON THE PRICE LIST

For your order to be valid, and forwarded for implementation so that it can be ready by the time you arrive at the METROPOLITAN, you must send the order form within the designated time frames (as described in the order forms), and fully pay the respective amount by bank transfer, or VISA, MASTERCARD, DINERS, or at the Expowork cashier's desk.
